

FIRST ANNOUNCEMENT

Joensuu Forestry Networking Week 2012: Green Growth Based on Forests: New Wooden Products and Construction

20 – 25 May 2012, Joensuu, Finland

The Joensuu Forestry Networking Week 2012 warmly welcomes applications from young scientists, professionals and stakeholders in forestry from anywhere within Europe!

The participants will be engaged in discussions, lectures, workshops and excursions to broaden their expertise and contacts through active participation and networking. Workshops and excursions will have an important role of the JFNW 2012 event by providing a practical way to deepen the knowledge gathered from keynote lectures and to network with colleagues from all around the Europe.

The keynote sessions will include speakers on the following themes:

- » *Drivers for Green Growth*
- » *New Trends of Wooden Construction*
- » *Innovative Wood-based Products*

Registration fee (80 €) includes lectures, workshops, excursions and meals (lunch, dinner, refreshments). Excludes accommodation and travel costs.

NOTE: Participants of JFNW2012 will be granted by diploma and certificate of 3 ECTS study credits when completing requested tasks.

How to apply ?

The interested applicants should submit a short description (200-400 words) about their personal background and interest in the field of the topic(s), and CV with contact details.

The requested documents should be submitted by 15.2.2012 to Ms. Helena Puhakka-Tarvainen (helena.puhakka-tarvainen@pkamk.fi).

The JFNW2012 Scientific Committee will examine all applications sent within the deadline, and 40 candidates will be selected to participate the event by 15.3.2012 at the latest.

Come and update your networks !
